

DO YOU EXPERIENCE ATTRACTION TO PEOPLE ACROSS MULTIPLE GENDERS?

If so, the National Plurisexual Person Study invites you to participate!

Our research team wants to learn about the experiences of plurisexual (multiple gender attracted) adults (18+) in the U.S., regardless of personal identity (e.g., bisexual, pansexual, queer, gay, no label, etc.). Specifically, we want to learn more about their positive and negative experiences including navigating identity, relationships, community, and nonconsensual sexual experiences.

Our goal is to better understand how such experiences affect the wellbeing of people in this population.

What does participation entail?

- ✔ One confidential 30-45 min. online survey
- ✔ \$10 gift card research subject incentive provided
- ✔ An opportunity to enter into a pool of potential participants for a confidential follow-up 30-minute interview and additional \$15 incentive

If interested, use the QR code to enter the brief eligibility screener survey

Approved by the Ball State University IRB (FY2025-239)
